

Cisco appoints Integration Logistics Inc. as an
Advanced Unified Communications Specialization Partner
Expands IL's Voice over IP (VoIP) Solution Offerings

Bear, Delaware, June 8, 2010. -- Cisco Systems (NASDAQ: CSCO) and the Cisco Channel Specialization Team have announced today that Integration Logistics has achieved Advanced Unified Communications Specialization Partner status.

Cisco announced that Integration Logistics has met the resource requirements and has demonstrated that it is qualified to support customers with Advanced Unified Communications in USA.

"This is a very significant accomplishment for Integration Logistics," stated Ken Schafenberg, CEO of Integration Logistics "We are proud of Cisco's recognition of our technical resources, and even more proud that they have investigated and acknowledged our high level of customer support. This expanded partner status will allow IL to provide comprehensive IP solutions to our customers, with the confidence and backing of Cisco's partner program."

The Cisco Advanced Unified Communications Specialization recognizes partners for their knowledge and expertise in selling, designing, installing, and supporting a comprehensive Unified Communications solution.

This specialization is designed to help partners meet a wide range of customer needs—from small to medium-sized businesses all the way up to enterprise-scale organizations—and focuses on IP Communications market opportunities that require advanced product knowledge and the ability to deploy solutions over multiple sites and geographies.

The Cisco Advanced Unified Communications Specialization enhances Integration Logistics' ability to deliver Unified Communications solutions that are integrated to create a workspace in which communications users can choose how and when to be connected.

"You will notice the difference!"™

The Cisco Advanced Unified Communications Specialization includes the following Unified Communications Solutions:

- IP Telephony
- Video conferencing
- Integrated voice and Web conferencing
- Mobile IP soft phones
- Voicemail / Unified Messaging

“Cisco states that Advanced Unified Communications products may be restricted for sale by Cisco Advanced Unified Communications Specialized Partners only” said John Smolinski, President of Integration Logistics. “With this specialization, Integration Logistics can provide our customers the most comprehensive solutions available in the marketplace.”

About Integration Logistics, Inc.
